Career Summary

DevOps Engineer with hands-on experience in cloud infrastructure (AWS), CI/CD (GitHub Actions, Jenkins), and monitoring (Grafana, Prometheus). Proven ability to automate processes and integrate cloud-native systems. Former PMO with strong project delivery skills and cross-functional collaboration. Seeking to contribute to scalable DevOps teams focused on innovation and reliability.

Technical Skills

DevOps Tools: Git, GitHub Actions, Jenkins, ArgoCD, Docker, Kubernetes, Terraform
Cloud Platforms: AWS (EKS, Lambda, RDS, DynamoDB)
Scripting & OS: Bash, Linux
Monitoring: Grafana, Prometheus
Programming: JavaScript, Node.js, Python, .NET
Databases: MSSQL, MongoDB, DynamoDB
Web & APIs: REST API, IIS
Testing: Software Testing, API Testing

Professional Experience

DevOps Engineer | Firewave (Startup)   June 2024 – Present
- Automated AWS infrastructure deployment using Terraform, reducing provisioning time by 40%.
- Implemented GitHub Actions pipelines, improving deployment frequency and consistency.
- Deployed microservices to EKS and integrated serverless Lambda functions.
- Established monitoring stack with Grafana and Prometheus for real-time alerting.

PMO | Matrix, Herzliya   May 2022 – Present
- Led full WMS project lifecycle, aligning delivery with client business needs.
- Implemented enterprise systems onsite, including configuration, development, and training.
- Automated business processes using MSSQL queries and scripting.
- Developed custom features in JavaScript and .NET; maintained IIS services.

Project Manager | LogistiCare, Lod   Jan 2020 – May 2022
- Managed timelines, resources, and reporting across multiple BI and dashboard initiatives.
- Delivered front-end solutions, improving client insights and operational decisions.

Restaurant Manager | Trio Restaurant, Ashdod   June 2016 – Dec 2019
- Oversaw daily operations, staff coordination, and customer service excellence.

Military Officer | IDF   June 2004 – Aug 2014
- Arming Officer and Safety Director; led combat units during military campaigns.

Education

Real Time College – DevOps Program   Aug 2022 – Aug 2023
Covered: Kubernetes, CI/CD, AWS, Terraform, Monitoring

Netcraft Academy – Fullstack Developer Certification   2019 – 2020
Covered: JavaScript, React, Node.js, .NET

Electrical Practical Engineer   2002 – 2004

Languages

Hebrew: Native
English: Full Professional Proficiency
Russian: Native / Full Professional Proficiency
